

Part D of Medicare...

- Everyone with Part A and/or Part B Medicare is eligible for this coverage.
- Not everyone will want to apply for this new plan. Some people have better prescription coverage on their existing plan.
- You do not apply to Medicare. You must select from one of the private plans approved by Medicare.
- You do not have to take the plan(s) offered by your Medicare Supplement insurance (Medigap) company. You should buy the plan that best meets your Rx drug needs.
- You pay premiums to your new plan direct from your Social Security benefit or from your bank.
- In most cases there are provisions for low income.

Deductible

This can range from 0-\$250 per year. You are responsible for **all** of this cost.

\$250-\$2250

You pay:
25%

Your plan pays:
75%

\$2250-\$5300

Coverage gap:
You pay **100%**

Over \$5300

Y
5%

Catastrophic benefits:
Your plans pays~ **95%**

How do I choose?

Start here:

1. Make a list of all your medications, dosage and number taken per day.
2. Find the plan that best covers your current prescriptions and drugs you may be taking in the near future.
3. Enroll in that plan.
